INTERNSHIP

accenture >

Packaged Application Development – Associate Software Engineer (ASE) Track May 2025 – July 2025

- Engineered full-stack enterprise applications using Java, Maven, Thymeleaf, and Bootstrap CSS, while integrating Generative AI and RPA technologies to automate and enhance business workflows.
- Collaborated within agile development teams to design scalable backend systems and dynamic UIs, emphasizing modular design, clean code practices, and performance optimization.

PROJECTS

Aurora: AI Mental Health Assistance System

Technologies: Python, Web Development, API, NLP, Kotlin (Android)

- Conceptualized and built a holistic AI-powered mental health system offering mood tracking, NLP-based journaling, and guided meditations.
- Spearheading integration with DeepSeek API for contextual AI-driven therapeutic interactions.
- Secured ₹2,00,000 in funding from Crieya and won *Best Project* at MIT Ideation 2024.

IoT Air Guardian: Air Quality Monitoring System

Technologies: Python, Arduino, ThingSpeak Cloud

- Engineered an IoT-based AQI system with real-time dashboards and cloud connectivity, enabling environmental health analysis at campus scale.
- Developed ML-based predictive models to anticipate pollution levels and recommend mitigation steps.

Aneka Lab Setup & Distributed Computing Projects

Technologies: Aneka Distributed Computing

- Championed Aneka Lab's mission by presenting research output at conferences.
- Contributed directly to MIT-ADT University's NAAC Accreditation performance under Innovation and Infrastructure metrics by enabling a live, research-driven cloud computing environment for which presentations led to industry recognition and increased collaboration opportunities with external research institutions.
- Designed and deployed distributed computing workloads (e.g., Image Convolution, Mandelbrot Set), optimizing computational efficiency across nodes.

TECHNICAL SKILLS

Languages: C/C++, Java, Python
Frontend: HTML, CSS
Database: MySQL, MongoDB
Developer Tools: Figma, VS Code
Cloud Computing in AWS and GCP

CERTIFICATIONS

- **AWS ACADEMY GRADUATE – AWS ACADEMY CLOUD FOUNDATIONS |** AWS
- **Networking Basics |** Cisco
- **Certified AI Developer |** Pushkal Shukla
- **IBM |** Hands-on Introduction to Linux Commands and Shell Scripting

EDUCATION

MIT ARTS DESIGN AND TECHNOLOGY, PUNE Grad: 2026

B. TECH in Computer Science and Engineering
AWS Powered Cloud Computing Specialization
Relevant Coursework: Cloud Security, Distributed Systems, AI & ML, DevOps

LEADERSHIP & ACHIEVEMENTS

- **Winner** – MIT Ideation Competition *(Aurora AI Mental Health System, 2024)*
- Secured **INR 2,00,000 funding** for Aurora from Crieya.
- **Led Aneka Lab setup** at MIT-ADT, **enabling parallel computing research.**
- **Debate Competition Winner** – MIT ADT School of Engineering.
- Tech Event Volunteer – Led hackathons & coding events at MIT ADT.
