EDUCATION

MIT ADT University

B.Tech in Computer Science, Cloud Computing Specialization (AWS)

Pune, India

June 2022 – July 2026

EXPERIENCE

Accenture

May 2025 – July 2025

Software Engineering Intern, Packaged Application Development

Pune, India

- Redesigned an enterprise web application for the client's Japanese corporate branch using Java, Spring Boot, Thymeleaf, and Bootstrap, improving page load by 40% and API response time by 25%
- Built REST APIs and microservices in Node.js and FastAPI, deployed via Docker in an Agile/Scrum environment
- Implemented RPA solutions using Blue Prism to automate repetitive business processes and reduce manual effort

CerebroSpark Innovations

Jan 2026 – April 2026

Drone Systems & Computer Vision Intern

Pune, India

- Contributed to drone systems built for Indian Navy and Indian Army field operations, with deployments in Nagaland and other operational terrains
- Engineered an ADS-B companion computer on Raspberry Pi 4 (PX4/ArduPilot via MAVLink) with RTL-SDR airspace awareness and AES-256-GCM encrypted LoRa/UDP telemetry, achieving 100% detection accuracy with zero failures in field deployment
- Implemented an AprilTag autonomous landing pipeline via a MAVLink state machine (MISSION → APPROACH → VERIFY → LAND) with pixel-offset velocity corrections for centimeter-accurate landings
- Built CSRT/MoSSE vision tracking with custom PID controllers for gimbal control, enabling real-time autonomous object following without GPS

PROJECTS

Aurora – AI Mental Health Platform | Python, NLP, Generative AI APIs

aurora-mhcb.netlify.app

- Built NLP-driven mood tracking and empathetic conversational AI; secured Rs. 2,00,000 in funding through a technical demonstration and innovation showcase

RetinologyAI – Diabetic Retinopathy Detection | Python, PyTorch, ResNet50

Published, IJARST

- Fine-tuned ResNet50 on the APTOS dataset (3,662 images, 5 classes), achieving 85% accuracy with 2-5s GPU inference and automated PDF clinical reports via Tkinter
- Published as first author in IJARST Volume 5, Issue 2 (Nov 2025), peer-reviewed

Synapse Corp AI – Multi-Agent GenAI Hiring Simulation | LangChain, RAG, FastAPI

Milan AI Week

- Built a multi-agent system simulating an end-to-end hiring pipeline using LangChain-orchestrated agents and a RAG pipeline for resume/job matching, served via FastAPI

Aneka Lab – Distributed Computing Research | Aneka Platform, University of Melbourne

- Led primary student research on the Aneka distributed computing platform; demoed during NAAC institutional review and co-designed faculty curriculum

Audoria | audoria.netlify.app Almost Died | adityamulay.itch.io/almost-died

- Music intelligence tool delivering timestamp-aware compositional feedback; solo-built Android game in Godot, published end-to-end on itch.io

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

Backend: Spring Boot, RESTful APIs, Microservices, FastAPI, Node.js, Maven

AI/ML: LangChain, RAG, PyTorch, NLP

Cloud & DevOps: AWS, GCP, Docker, CI/CD

Drone & Vision: MAVLink, OpenCV, PyBullet, RTL-SDR, PX4/ArduPilot

Databases & Tools: MySQL, MongoDB, Git, Linux, Blue Prism RPA

CERTIFICATIONS & ACHIEVEMENTS

AWS Certified Cloud Practitioner (CLF-C02)

AWS Academy: Cloud Foundations, Architecting on AWS, Linux & Shell Scripting Security

Google Cloud: Speech API, Apigee API

Accenture iAspire Gold (Jan 2025) Ideaspark Winner, Best Project MIT SOC 2023 Tech Debate Winner, Wordsworth SOC 2022

Student Ambassador, Indo-Japanese Cultural Exchange JLPT N5 (in progress)

Letter of Recommendation – Prof. Dr. Rajesh Prasad, Senior Member IEEE, Associate Dean, MIT SOC
